The world needs FIGU, and FIGU needs you!

If you have the ability to make videos, then you can translate that ability into support for the Mission.

The world needs FIGU, and FIGU needs you!

You can run your own video channel, or submit your video works based on FIGU information to SSSC's channel.

The world needs FIGU, and FIGU needs you!

Also, if you're good at voice acting in your native language, such as French, Spanish, Russian and Chinese etc., you can translate that specialty into support for the Mission too.

however, we have each other,

The world needs FIGU, and FIGU needs you!

If you would like to do that, try recording a voice and submit it to corresponding FIGU branch (see the last page), then other video makers can have a chance to get suggestions for suitable voice actor.

and for this reason,

The world needs FIGU, and FIGU needs you!

Our initial intention of launching this initiative is to facilitate a process, that is partially show the precious FIGU information to the people from different language worlds in the form of video, so as to let more people know about FIGU and then learn about FIGU.

Deeply thanks to those FIGU companions and friends who presented FIGU information in the form of video and participated in the production of related videos!

we know we are not alone.
